Looking for something new and different from the same old shooters and fighters, swords and dragons? Look no further. Presenting…

THE MOTHER 3 PETITION

Mother 3 is the Japanese title for the sequel to EarthBound (a unique RPG released for the SNES in 1995). This game could bring a whole new dimension to the RPG experience if released. Designers worked on the game for four years when it was suddenly cancelled; help the fight to get this game released.

As of mid June, there are already nearly 20,000 signatures on this petition. Join the battle.
